**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 16-26 and 31-42, drawn to a process for packaging a food product.

Group II, claim(s) 27-29, drawn to an apparatus for conducting a process for packaging a food product.

Group III, claim(s) 30, drawn to a package for a food product.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common concept linking the inventions (see Claim 30, lines 1-5) is known in the art, as evidenced by Bowers et al (US 4,813,862). See also PCT/IPEA/409 section IV.

A telephone call was made to Patrick W. Hughey on 6 July 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
